

THE STONE COBBLERS

317 West Boylston St
West Boylston, MA
01583
774-261-4445

Countertop Removal Waiver

The Stone Cobblers often encounter unknown circumstances during removal of existing countertops. Please review the following:

- Damage or loosening of tile back splash.
- Cabinet face frames- may peel or chip due to adhesive used for original install.
- Tile grout may loosen.
- Counters may break when lifting.
- Removal of existing tile or other backsplash materials may result in damage to walls. There may be space variations left when installing new granite or quartz backsplash material. *Spacing between grout and new countertop and back splash may require grout or tile replacement.*
- Adhesive or, silicone seals (aged or other products- unknown to us) used in your Original Counter Install- can sometimes require use of cutting tools to remove.

The Stone Cobblers

**WILL NOT be held responsible for any of the above unforeseen variables.
Both Granite and Quartz are a non- flexible material requiring a level surface-
unlike Laminate or Wood tops.**

The Stone Cobblers will work with the greatest care and respect of your existing Cabinetry and Countertops .**We can't control the unknowns of existing counter top removal and will not be held liable for unforeseen damage that may occur.**

Counter top removal requires disconnect of plumbing & gas/electrical -cooking appliances. Homeowner is responsible for obtaining licensed professionals for plumbing & appliance disconnect "prior" to our confirmed scheduled counter top removal appointment.
